2.1 Product Backlog Items Diagram

Figure 01: User Module

2.1. Product Backlog Specification

Table 1: Product Backlog Specification

ID	Theme	As a	I want to	So That	Priority
AUTHENTICATION					
PB01	Login	User	Access to the system by Facebook or Google account	I can use the application with my role	1
PB02	Logout	User	Log out system	I can stop using system. I can log in later when I want to use application on next time.	1
MANAGE PROFILE					
PB03	Update information	User	Update profile	I can update my profile on application	1
SURVEY					
PB04	Search	User	Search food I want	I can easily pick	2
PB05	Pick favorite food	User	Pick favorite food	System can easily make a recommend	2
RECOMMEND					
PB06	View list food	User	View list food from recommend system	I can easily pick a food	2
PB07	View food detail	User	View food detail	I can view more information about food	2
PB08	View direction	User	View direction	I can view location of food store on map	2

			MEAL TODAY		
PB09	View meals depend on time	User	I can view meals for breakfast, lunch, dinner	I can easily pick a food	3
PB10	View meals depend on environment	User	I can view meals depend on season, temperature	I can easily pick a food	3
			SETTINGS		
PB11	View history	User	View history	I can easily view history	3
PB12	View bookmark	User	View bookmark	I can easily view bookmark	3
PB13	Edit function	User	Edit function of application	I can edit application's function	3

2.2. Break down into Sprint Backlog

Table 2: Break down into Sprint Backlog

Sprint	Function	Started day	Due day
SPRINT 1	Setup environment and define requirement	02/18/2020	03/03/2020
SPRINT 2	Authentication and processing data	03/03/2020	03/17/2020
SPRINT 3	Survey, recommend and food detail	03/17/2020	03/31/2020
SPRINT 4	Meals today, search, bookmark and profile	03/31/2020	04/14/2020
SPRINT 5	History, setting and improve function	04/14/2020	04/28/2020
SPRINT 6	Improve UI and fix bugs	04/28/2020	05/12/2020

3. **Constraint**

Table 3: Constraint

Constraint	Condition
Time	Project completion time limit in 1296 hours so time to complete project be restricted
People constraint	4 people working together to finish the project
The integrated system	Must be connected to Internet network to operate
Requirements	According to Product Owner's Requirements

4. **Stakeholders and User Descriptions Summary**

Table 4: Stakeholders and User Descriptions Summary
